

The mother refused to take him to the doctor, she also refused me. But when I was delivering clothes later that day I gave her a ultimatum that she had to let me take Gabriel to the doctor or I will call the police on her. There is a longer video taken 15 minutes after this video that will prove my saying of what is happening to my kids with the mother.

01.04

Gabriel "it is your fault that I had to come along"

Marius "Yes, you are going to sit down in the car"

Mother "no, he is not going to do that."

Marius "he is going into the car."

Mother "why?"

Marius "if not, I can promise you that I will call the police and they will show up on your door, because I have filmed him yesterday of how his face looked like, and you are not willing to go to the doctor, and that I can document that you are not willing to do. Either he comes with me or the police will arrive at your place."

Mother "where are you going to take him?"

Marius "he is going to the doctor."

Mother "I want a copy of everything you get from the doctor, and he is coming back to me, and Leon is coming here tomorrow Marius."

Marius "I come when he wants to, he will come when he wants"

Mother "he is supposed to choose for himself, but Gabriel can't do that."

Marius "He wants to be with his friends, I am telling Leon to call you afterwards, he will call you later today, you will have him for one year"

Mother "I have not seen him, hell, do you not understand what I am saying."

Marius "you are going to talk with him later today, relax." In the video from the same day 15 minutes after this you can clearly hear that Leon was going to his friend Liam.

Mother "I WANT to see Leon"

Marius "Yes, and you will see him for one whole year. He wants to be with friends, that is his choice, you can talk with him later."

Mother "I want documentation from the doctor and I assume that you have sent the other paper also? To child service? I will also have that documentation thank you. Send this to me and it will be sent to the Norwegian child service."" paper from a allergic doctor that I needed top deliver two days after the meeting.

Marius "you don't need anything, kay."

Mother "yes, I will. I have the rights for everything that are happening to my kids"

Marius "But, you are saying that nothing is wrong."

Marius "your mother put really much lotion before you went?"

Gabriel "what?"

Marius "what did your mum do right before you went outside?"

Gabriel "put only lotion on my face."

Marius "yes, a lot?"

Gabriel "yes."

Marius "way to much?"

Gabriel "mm"

Marius "yes, she does it so she can cover your face"

Gabriel "Or it was not so much, it was just eeh" Now he realized why I asked him. like I said he is a smart kid.

Marius "Gabriel, you don't need to talk down the situation, it is important that your mother understands that she have to do the same things that I am doing, so that you can have good life. Do you understand that? Understand? This is not about anything else"
