

This is a video of the mother actually sending a message to the child service about me agreeing that the case is closed. So she manipulated my words in to her favour, so she could have the kids before they were tested. The reason she did this is because I have always told her that if the child service comes with an conclusion, I will follow that conclusion. I have never seen the letter she sent to the child service, but I should have been sent from the mother around 14.06. She is doing lies and false statements all over the place after the child service came in the picture. I can tell you now that I am not going to test me or Leon before court. The court system is going to do it this time. I don't trust anyone now.

Frame written from the mother "I have now informed the child service that I want them to inform you the conclusion of the case and to put the kids on flight home to Norway. This is is much better since it is stricter quarantine rules here. You can choose what to pack down and being sent with them to Norway. I will order fly tickets with an adult follow.

Marius "it is stricter rules here. Haha, all you are saying is just nonsense." "+ it is way safer where the kids are now since it is almost none incidents of corona, so it is much safer here than in Norway on every aspect."

0.35

Frame mother "the infection rate in Oslo is very good now, and thing is opening more and mor. So no worries about that."

Marius "you just wrote that it was a better corona situation in Norway than here. And that is why they all must come home quickly, but that is not correct. Everything is much better here. Even the dyslexia you said Leon had is gone here."

Mother "you are misunderstanding what I am writing."

Mother "I am saying it is stricter rules her and I don't need to be put in quarantine if they are put on flight to Norway"

0.42

Mother " the situation is good here, but they dont want anymore contagious here from the other countries. That is why it is strict rules by the border."

Marius "you are keep trying to pick up the kids before they have taken their tests. You are doing everything in your power." Finding new excuses all the time. First it was the school and child service that said you needed to rush down because it was an unsafe environment. While now It is quarantine that is the reason for them to go home quickly. The more contagious a country have the stricter it is. You have had house quarantine on and off the last six months, your whole district was in lock down. Here has been absolutely nothing of this. Much safer here."

Marius "just remember that we are going in to a meeting with the child service before that conclusion."

Mother " I have sent mail to child service and informed them that I want them to inform you about things, so that the kids can be put on an airplane" Here it is really important to find that mail. Because as you can read from everything this is a pure lie like everything else.

Mother "but I checked the legal rights for flying and you have to be at least 5 years old."

Mother " so I need to come down. Don't think you understand my economic situation behind this because of you." She is actually blaming me

Mother "this will cost me more than thousands of euros."

Marius "wow, hahaha economic"

Marius "how much money have you spent on your kids the last year?"

01.28

Mother "you are laughing about economics, and that is not cool when this certain of amount comes up." Trust me she had money, and a lot. She was in canaria one month before she flew out illegally, she said she didn't have money before she left.

Mother "when you have decided how things will go cant I see any reason of me spending money." Here she actually telling me that since "I" have come to a conclusion of given the kids away, she cant see any reason to give away money. Haha, this is what I have dealt with all our time together. She twisting everything to be my fault, while I am defending myself.

Marius "that you are even bringing up economic when you are talking about your kids are insane. So money is a problem? Not what the best for the kids?"

Mother "it will happen as cheap and easy as possible."

Marius "sell your house."

Mother "stop talk"

Marius "you have money in your house, stop complaining."

01.50

Mother "now I am traveling up and down extremely quickly and are taking the kids. It is a lot cheaper than I thought it would be."

Marius "people are walking around here with nothing and they are not complaining like you."

Mother "ok, but the one that have nothing have no economic commitments"

Mother "so that goes hand in hand."

Marius "haha, tell them that by the dinner table."

Marius "you are eating what you want, aren't you?"

02.21

Mother "the children are going home under frames that have now been established."

Mother "I am flying up and down when it goes a flight."

Marius "nothing of your frames."

Marius "you are outside of the system"

Mother "the child service is going to talk with you since I am traveling in a weekend."

Mother "and are leaving straight after."

Mother "have we suddenly not come to an agreement after all?" her she tries to play smart.

02.47

Mother "?"

Mother "you told me that you should see the case done and that the kids was going with me. Like I have said I have given notice that I want to leave with the kids as soon as possible. I am flying down a Friday or Saturday, and then leaves on a Monday with the little ones."

Marius "hahaha, are you manipulating my words? I have never said that the case is done. The case is done when the child service says it done."

Mother "that is exactly what I am saying."

Mother "hello."

03.31

Marius "yes, after everyone have been in the meeting. It will be meetings before this case is closed."

Mother "I have informed the child service that they will share their conclusion with you, so that you knows that the case is done."

Mother "why is that?"

Marius "they will meet the kids, they will have meeting with us, etc."

Mother "why do I have to use a lot of money on this?"

Mother "it goes flights only then and then."

04.22

Marius "so you are saying that the case is done?"

Mother "Correct!"

Mother "they have concluded"

Marius "hahaha, the case is not done. Far from it"

Mother "and that is what I have asked them about. So that they can share it with you."

Mother "so I can pick up the kids. I don't see any reason for me to sit in that meeting just to go over things one more time."

Mother "new"

04.44

Mother "it is just you that misses the update."

Mother "I only wants a plane down and leave again."
