

Mother calling Leon to tell him to speak pretending being sick the same day he was sent home from School with Covid symptoms and a doctor telling us it is allergic bronchitis.

0.28

Mother "what is happening to you at the school, and outside, and everything?

Nova My daughter "Leon is sick, Mother, no, mother Leon is sick."

Leon "no" he says no since he is been told by the doctor that he is not sick, it as an allergic reaction.

Nova "yes"

Mother "My girl, thank you, but I am talking to Leon now, so now Leon must be able to answer, ok my girl? We can talk afterwards."

Nova "why are you looking at me, go and fix candy" hehe

Mother "Leon?

Leon "yes"

Mother "yes, what is these things?"

Leon "what things?"

Mother "you are coughing, saying you have pain in the chest, and gets sent home from school?"

Leon "Asthmatic bronchitis" he don't remember the word allergic."

Mother "what do you mean? Asthmatic bronchitis?"

Marius "Allergic bronchitis."

Leon "allergic Bronchitis"

Mother "yes, ok, but what are you allergic against Leon?"

Leon " I think I am allergic against, pollen, fur animals,"

Mother "against what?"

Leon "fur animals"

Mother "no, I have tested you against that in Norway, so you are not allergic against that."

Marius "No, one knows what you are allergic against."

Leon "I said I think."

Marius "there is no one that knows. You have reactions and no one knows what it is." My kids have not been allowed to say they are allergic to anything because they have a mother that refuse them to react to things, and we won't get an appointment in a hospital to check what I want to check. Until things are clear, my kids have been told strictly that they are not allergic,

but, have reaction to certain things until we get it written on paper. But off course they are allergic to things.

Mother "isn't it strange that you have lived here in Norway without any reactions and suddenly now you have?"

Marius "he had reactions"

Mother "no, I am not talking to you"

Marius "he was aggressive for four years"

Mother "Leon can you leave the room with your father?"

Marius "I have said very clear that if he is talking to you about these kind of things, will you be recorded, that is something every kid knows about."

Mother "you should not interfere when I talk to Leon"

Marius "but you are recorded, since I want to know what you are saying."

Mother "Leon"

Leon "Yes"

Mother "you have never ever had these kinds of problems before now. Why is that?"

Leon "I don't know"

Mother "but know when you are with your father, that have said himself about himself that he have things he cant handle here in Norway and then suddenly you have reactions."

Leon "no, I didn't tolerate things in Norway as well, and my dad have prove."

Mother "what do you mean your father have prove? He have no prove that you cant tolerate things in Norway."

Leon "yes, he got evidence."

Mother ", ok what?"

Leon "he got picture"

Mother "no, that is not evidence since that could just be a coincidence. You have never coughed or had rashes, this have you almost never had. Almost nothing." This is true. Leon has never been the one of the kids that have much reaction with rashes. But he had it the day I picked him up from his mother, his trout was red all the way down to the chest. Leon reacts mostley with aggression and will be very unfocused. So, he doesn't have the visible reaction. If we don't think about canaria. I know why the kids are reacting differently with me and their mother. When they are with me they are totally protected against the things they cant handle. So their immune system is slowly pulling back and their reaction will be heavier when they are on something they cant tolerate. It took Nova and Gabriel 2-3 weeks when I picked them up to be calm. It took Leon 2 months. Every time we went on mountain trips on canaria Nova got red in here face. Every time. We walked up where there was flowers and trees.

Nova is asking for candy in the background the whole time. We had a lot that day since it was 17.may the day before and that is Norway's national day.

03.44

Mother " these problems you are talking about, that you talking about and you are saying you have and have never had before."

Leon "Maybe"

Mother "what?"

Leon "maybe"

Mother "you have never had it before"

Leon "yes"

Mother "when?"

Leon "in Norwar"

Mother "when in Norway?"

Leon "when I was outside and played"

Mother "you have never been sent home from school or talked about any of these things you are talking about here, when we lived in Norway"

Leon "That is because I never talked about it, I didn't tell so much."

Mother "That is lies, that you didn't say so much. That is what your daddy have told you."

Leon "NOO"

Marius "I haven't told him anything."

Mother "yes"

Leon "NOO"

Marius "I haven't said anything to him, this is his words" I had no reason to tell him anything about Norway since he saw Gabriel and Nova red every time I picked them up.

Leon "What, he hasn't said anything to me." He starts to get affected since the mother lies to him. the reason the mother lies are because she is manipulating the world and telling everyone that I am talking shit to my kids. And make them say things that are not true. And here is a good example of that.

Marius "so again you are telling him that Leon is lying."

Mother "You don't have reactions against the things you are saying you have, and know it will come people from child service in to your house and take you on tests. And if I find out that you are overreacting and lies about this will I be really upset. Because it is tests, it is test here. You cannot just go around and say that you have these things and think that it doesn't exists doctor that can find out of that. You know that."

Leon "we have a doctor that have found out of it."

Mother "no, you don't have that."

Leon "yes"

Mother "you don't have that. That doctor has not done one test, and now it will come people in and take you out for tests. I have received a number from the school and I am going to call and order an appointment and then you are going to take tests."

Leon "wait, why cant daddy order an appointment?"

Mother "since he is not able to do it, now it is someone else that are going to take test" Leon is laughing since he knows she is lying. He has been to the hospital four times without any test done. He is not 7 years anymore.

05.38

Leon "ok, but then my father should say to them what we are going to be tested against"

Mother "Leon, now you are talking like your father" she is always suppressing me to the kids. This is the third time this conversation she is telling him that I have put words in his head.

Marius "no, he have just heard what you talking about"

Leon "NOO, Hey mother, why don't you let daddy pick?

Mother "what have you with this about Leon, if your father should be able to choose what to test."

Marius "It is Leon that is showing, cant he choose what he wants to be tested against"

Leon "Yes."

Marius "Why should you choose what he should be tested against, let him choose it himself"

Mother "I have never said that I am going to decide, but you hearing what I am saying Leon"

Leon "ok, but can I choose what I can bee tested for."

Mother "the things you are talking about, will you be tested against."

Leon "Hey mother, Why cant choose what I should be tested for."

Mother "Since you have no idea of what you tolerate and not tolerate Leon,"

Marius "but you know?"

Leon "you know? You know?"

06.30

Marius "so you know?"

Mother "You have never had any allergic reactions, and I can say that the tests is going to prove that. And when the test are here and it shows you the completely different of what you are saying going on here know, I can promise you that in will be consequences"

Leon "mother, then my father should choose what I will be tested against"

Mother "I am going to call the hospital tomorrow, and make an appointment"

Leon "but, dad is going to choose"

Mother " and it comes, and I am going to get the phone number to child service that are going to speak with you."

Leon "ok, but dad is going to decide what I am going to be tested against, is that ok? Is that ok?"

Mother "I think educated people should decide what you are going to be tested against."

Leon "NOO, why cant dad? Why cant dad?"

Mother "your dad went around in Norway and said that people was throwing things at him that he couldn't tolerate, that is why he cant choose."

Marius "I cant choose that when I walked on the streets with the kids and suddenly Nova gets completely red in her face, this did Leon see, this saw Gabriel, this saw we all together"

Mother "it is not this we are talking about" and it was this we were talking about. Nova was 2 years old and got red as hell when we passed certain people. And she declines it. That is a great mother, and again suppress the answer of her own statement.

Marius "You said people was throwing things at us, you said it now, and I answered you"

Mother "that wasn't what happened"

Marius "we sat on subway and went to see my mother and it happened, and the kids got red, the same things that I didn't tolerate, and every kid saw it."

Leon "MUM MUM MUM, mother I want my dad to decide it since it is him that say we are allergic to things. Then he can choose what we can test."

Mother "I mean that the things your father does is dangerous, he makes you sick. And that will float on the surface now. When the results arrive, and everything will be seen, and if they don't find anything do you know what your father is going to say then? He is going to say that this is a lie" Again she suppress me against the kids. Here you have her statement also that it is nothing wrong with the kids. And lets go the history of sicknes of my kids. From we arrive in canaria late august last year until late February we were home maybe twice. Until I stopped ironing. From Gabriel started at school in august 2021 in Norway, he has been sick 4 times, once a month. Leon has not been sick yet her in Alicante. My kids are never sick with me. They had allergic reactions for 3-4 months. They have never been sick after that or before. I have not been sick in since I stopped smoking 6 years ago. We are never sick. We got food poisoned twice at mcdonalds as well. Something my kids wasn't allowed to say to mother since it has never happened in Norway.

Leon " MOTHER, Now will dad choose what we are going to be tested against"

Mother "no, it is educated people that are going to do that."

Leon "IT IS DAD"

Marius "don't talk anymore about it is ok."

Leon "I will talk more about since that is what I feel."

Marius "it is ok."

Mother "you are hearing what your mother is saying, now it will arrive people in to your house. And they will take tests on you and will also follow up the way you are living. So that you don't lie and say much bullshit."

Leon "I don't do that"

Mother "but then it will be shown at the tests leon."

Marius "you know that the school has documented that Leon is sent home with covid symptoms? Do you know how it is to have covid symptoms? Do you think a eleven year old kid can be talked into having covid symptoms and sent home from school, we sat in quarantine because the school sent us home with covid symptoms."

Mother "mmm"

Marius "do you think I manage that? What do you think I am a medicine man?"

Mother "I want to talk with Leon"

Marius "Do you think I am a medicine man?"

Mother "you heard what i said."

Leon "now my father should finish speak"

Marius "I am done"

Mother "I did not call to talk with your father, now I am calling to talk with you. And I am trying to tell you that it is thing happening now, and it will be consequences and there will be people that will come to you."

Leon " Strangers"

Mother "yes, strangers and they are arriving now. I assume you dad has told you this?"

Marius "yes, Child service is arriving. And I have told them why. I am always honest to my kids."

Mother "so what, Marius, so why is the child service arriving?

Leon "why? They are coming because the school has sent a message and are concerned that I don't have with me a backpack anymore, and my dad have recently had a conversation with them about it, and they said ok. And Gabriel is crying about not having a backpack at school."

Mother "Leon don't talk like this, it has never been said that Gabriel is crying about not having a backpack at school. And stop that way of talking."

11.06

Leon "haha"

Marius "he is upset, Gabriel"

Leon "I didn't mean crying"

Mother "but that is to different things."

Marius "but this is something everyone knew about"

Mother "Marius, Can you please stop. What else is it?"

Leon "hm what?

Mother "what else is it? Why do they arrive?"

Leon "They are arriving to see if dad is a good father or a bad one."

Mother "is that, is that, why are they coming Leon?" You can hear that he don't remember up to exact words. But she keeps on pushing.

Marius "and the homework"

Leon "and the homework, and yes"

Marius "and what?"

Leon "and that we did not do enough homework."

Marius "we have not been able to do enough homework the last months."

Leon "since my father is fixing the things we are not tolerating."

Marius "that is not correct, I have not fixed anything the last months. That is why we haven't done enough homework."

Leon "yes. That is why."

Mother "yes, ok,"

Leon "yes."

Mother "and what else?"

Leon "I don't know, there was one or two more times. But I don't remember"

Mother " and that was?"

Leon " I don't remember, no that was all."

Mother "but that is not correct."

Leon " yes it was everything"

Mother "but it is not all the things, there many many more things."

Marius "tell us then"

Leon "tell us"

Mother "that you are arriving late to school often."

Marius "yes, we did that the last three months"

Mother "that, that ,that, your father is telling you that you are not tolerated certain things when you are touching things at school."

Marius "I have said that they are reacting on things."

Mother "I don't talk to you marius, I am the one that speaks. The school is concerned that your father is telling you that you are not tolerating everything. When you are at school there is no one that see any symptoms of anything."

Marius "what did you say know? That they have not seen any sign of them not tolerating things?"

Mother "correct"

Marius "hmm, but they are sending them home with covid symptoms"

Mother "that is because your son suddenly has turned into be a sickly kid"

Marius "he had it like this last year also, we got sent home in quarantine last year as well. This has not been a sudden thing that have happened. First time was in November." In November was the first time."

Mother "nothing of this happened in Norway in four years, go home from the school early and yeah, I don't like it. And another reason I don't like it is that your father has said much bullshit here" She liked it apparently more that her son was angry and signed documents of ADHD and was a second-grade student in fifth grade. And if I tell so much bullshit, why send me away with three kids alone to another country with a pandemic in this world?

Leon "mother, do you want to know why I didn't say anything, because I didn't say anything since I was to scared to say anything."

Mother "scared to talk, don't say that you never have been able to express yourself with what you want in your home Leon."

14.00

Leon "mother"

Mother "yes"

Leon "can you get the doctor to say that dad will choose the tests?"

Mother "I will not say anything, because I don't agree at all of what your dad is doing. I am going to say to the doctors that they are doing the tests out of the concerns that have arrived. And form that will child service."

Leon "you are always saying that every doctor is right, so if I got asthmatic bronchitis , if I got allerg, if I got Allergic Bronchitis, IF I. Mother?"

Mother "Yes"

Leon "you are saying that we should trust the doctors and this doctor have said that I have allergic bronchitis,"

Marius "Because you don't have any problems in your lungs but in the airways over the lungs"

Leon "and the doctor have said this two times. And then I have to take many medicine so I can have it nice."

Mother "Leon, I mean that it is your father that makes you sick"

Marius "Wait a moment. You wanted to give your son ADHD medicine in Holmlia "the place we lived" Completely without any foundation."

Mother "I have never said that that"

Marius "yes, you sat with them around the table and said to me that they need to take an evaluation on Leon now, the only thing I "mother" need is your signature so that he can get ADHD and help. This was your words"

Mother "they need to take an evaluation."

Marius "Evaluation was done Kay. You wanted to have ADHD confirmed, and the only thing missing was my signature so I could help you make him have ADHD and put in him ADHD medicine, this was your words."

Mother "this is completely bullshit."

Marius "yes, now it is bullshit. I am the one that have said no the entire time, no one has been allowed, and it is you that has signed. It is you that have sat around that school and talked with them of how you are going to "fix" him. and said that what the school is doing here is good, and what they are doing there is good. And we are going to have a specialist teacher here and one there, and what have you accomplished? Four years have you tried to make your son have ADHD. And where is it?

Mother "I don't talk with you, I am talking with Leon.

Marius " and then you are trying to take me on something Leon is reacting to the last three months."

Mother "you are hearing what your mother is saying."

Marius "four years you have tried to put ADHD on him."

Mother "I am calling to speak with you Leon."

Leon "Yes"

16.48

Mother "pick up the phone and walk away."

Marius "you have to be capable of to get some back"

Mother "NO, because you have nothing with this conversation to do."

Marius "I HAVE everything with this conversation to do. You are saying out that you are pissing on me. You are saying in this conversation that you are going to ruin things for me."

Mother "That I am going to ruin for you."

Marius "the way you are talking, kay."

Mother "its not up to me to decide."

Marius "mhm, everything floats.

Mother "you are finding up things in your head again."

Marius "mhm" Stil you sent me away to canaria with three kids alone.

Mother "Leon go into the bedroom."

Marius "He is not allowed to talk to you without being recorded, kay.

Mother "Leon, go into the bedroom."

Marius "that is not going to happen."

Mother "youre father cant keep away from the conversation."

Marius "I will be silence"

17.37

Mother "yes Leon, what is it."

Leon "if I had walked into the room then my dad would have taken the phone and said no to fortnite."

Marius "what? What are you talking about?"

Mother " you said you would be silence."

Leon "HE talks to me."

Nova Still wants candy

Marius "it is Tuesday, and that should not be a candy day?"

Nova "yeees"

Marius "you need to wait a little bit a then we can fix something."

Nova "no, stop Leon. Don't ruin my hair, it must go down."

Marius "Should it go down?"

Nova "Nova"

Marius "you want Elsa Hair?" frozen

18.36

Leon " what did you want to talk about?"

Mother "now it will arrive adult people, just the same way it happened at Holmlia, do you remember it happened at Holmlia?"

Leon "nooo."

Mother "what do you mean with no?"

Leon "I don't remember?"

Mother "you do remember it came people from outside and wanted to talk with us at Holmlia."

Leon "no."

Mother "now the same thing is happening again, just in spain with your father. This is the second time this happens. That educated people are coming in since they think things are one the wrong way."

Leon "that is because you have sent them a message."

Mother "no"

Leon "yes."

Mother "I have sent a message, and now you start to talk like your dad." Again suppressing me to my kids.

Marius "Why is it that you are always assuming and telling the kids that I made them do things?"

Leon "Father you told us to be silenced."

Marius "I need to defend myself"

Leon "Shut up"

Marius "this is sick, it is really fascinating this."

19.42

Leon "mother"

Mother "yes"

Leon "I DON'T remember what I was talking about because of you"

Marius " it is not my fault that your mother is all over the place."

Mother "Leon?"

Leon "Yees"

Mother "I have not sent messages anywhere, this is other people"

Leon "you made the school send message"

Mother "as I told you earlier this is your father telling you that I have sent a message." Again, suppress me to my kid. How does she really think this is going to work out? She tells everything he experience for himself is a lie, every thought he has is a lie. She really destroying my son.

20.07

Marius "do you want to why? Do you want me to tell? Our neighbour Karianne saw that I throwed you out the front door in the wintertime after you screamed and destroyed the house for 45 minutes. In your boxer, then Karianne walked into our house, don't you remember? Don't you remember that Karianne was really angry at me and said she was going to call the child service and this is not the right way, etc. so she left a note on me to child service. She meant that I was not good for this situation. And then they tried to say that I was not part of your lives, and that is not correct, if you aske the people in the neighbourhood who was the one that took you out one the play areas, out on walks with our dog, will they say it was me. No one else. And that is also rubbish. And when it comes to homework was it usually I that helped you, but when we got to third grade then we swapped since I was the one that cooked dinner at home and your mother the homework. And when it comes to the other things they tried to take me on, like the way I punished, then your mother did exactly the same, so there was no thing there. Your mother is as guilty as I am in that process. And she can say no and say whatever she like, but we did the punishment exactly the same. I have never done anything else than what we agreed on what we should do. The one thing they also tried on was that I said no to have you checked for ADHD since I didn't believe that was the correct way.

Mother "I have never agreed on the way you punished Leon on."

Marius "Have did I punished him?"

Mother "by throwing him out was you thing, not mine."

Marius "I have recorded that you throwed him out, kay."

Mother "I have never done it"

Marius "you throwed him out multiple of times. Multiple of times"

Mother "never"

Marius "ask him yourself?"

Mother "never"

Marius "this is just crazy"

Leon "you have throwed me out."

Mother "I have never said that this is something that should be done." Now she tries to save herself of course. But I can say on my part that I would have done the same thing again. I throwed him out maybe 20 times in total and it should have been more. When you have a 8-9 year old kid swearing Mother fucker, pussy, gay fucker, pussy licker, fuck you and destroying everything in the house at the same time for 45 minutes in front of his younger brother that was 5-6, and a little sister that is 2-3 then you must decide who to protect. I did it because I couldn't let Leon's Behaviour reflect over on Gabriel and Nova. And I said it to the child service in Norway as well. If he wants to be boss, he can go out and be boss with the threes. Not in here. So that she is even tried to say never first is just out of this world. Leon Was a wreck. And that is why everyone told ADHD.

Mother "I have never started to say that this was the way of doing it."

Marius "so I have said that I agreed to do this? That this was good to do? This was the only way to do it."

Mother "you told me that I had to do it."

Marius "Are you trying to tell me that I told you to throw him out? Are you trying to say that I told you how to throw him out? Are you lying"?

Mother "you are lying marius"

Marius "Tell me one time I have said that you are lying? Just tell me one time, you will never hear it again." I never use to say this and the way I defend is just stupid since she is caught lying 6 times before in this conversation.

Mother "you will not be living with you dad when this is done, and it will come a report and that will decide if you can stay there or not. Most likely would you not be able to live there with your dad."

Leon "then it is your fault. Then It is your fault"

Mother "why is it my fault."

Marius "yes, you are hearing how she is"

Leon "then it is your fault. Everyone knows it"

Mother "Why is that?"

Marius "You can hear how are with what happened with the child service in Norway. It is your fault"

Leon "you are talking about child service every time."

Marius "Child service came on me because of karianne. I took all that shit, and you were as equal as me in that case, so don't play something you are not."

Mother " I am not"

Marius "no because you are the angel? The kids can't express their own feelings. Always talk shit about me"

Leon "you said that you are going to talk with me."

Marius "The only thing you do"

Nova "mother?"

Mother "yes"

Nova "I like you."

Mother "yes, you should come home to your mother my girl."

Marius "your mum don't want you to be with your father anymore."

Mother "I did not say that"

Marius "you said it now, you should come home to mother."

Mother "no, you cant be with your father down there anymore"

Marius "yes, you cant be with your dad anymore."

Mother "and again you are twisting the words." But I am not, she knows that I was never going to return back to Norway. That is never an option. And will never be. She only wants me in Norway so I can make them survive her craziness. She knows that the only way to keep the kids calm at school is by doing the things I am doing, and if I am not there the kids will not come to a place were they can relax. My middle son has already sat on the desk at school screaming mother fucker and every bad language he knows a full day at school, and this is how it started with Leon as well. But if I go to Norway the kids will still be fucked since the mother is saying that I am crazy and the kids are tolerating everything, there is no prove. But I cant get prove since no wanted to help. I tried, but they bullshitted not only me, but the kids as well.

Marius "so you cant be with dad anymore"

Mother "and again you are keep twisting my words. And saying thing that has never been said." When I left the agreement was one year on and one year of in spain. Something the contract also can confirm.

Marius "they have it better here than they did at home and with you ever."

Mother "no,no"

Marius "that is your word ask the kids then? And not the way the teacher is asking. Ohh you have a little bad time because of the backpack, and just keeps on."

24.40

Mother "Leon"

Leon "yes"

Mother "why do you feel that it is my fault?"

Leon "you just want me home to take tests"

Mother "you want me home to take tests? You will take tests in spain Leon, that has nothing to do with me. The tests will be taken since you are acting the way you are and your father like he does."

Marius "what do you mean? She is saying you are lying."

Leon "you mean that I am lying"

Mother "and that you are going around saying a lot a lot of weird things, people think is strange what you do. That is why it comes a message of concern. Because they say your behaviour is strange."

Leon "that is you also"

Mother "not that strange that people calls child service on me Leon"

Leon "That is because I have never screamed to you almost. To my mother"

Marius "have you never screamed to your mum?"

Leon "I don't scream to mum"

Mother "I don't understand what you are saying Leon."

Marius "haha, I don't either. You screamed at everyone, there is not one human that you have not screamed at"

Leon "yes"

Marius "ooh please, in Norway you screamed equally to your mother, to your teacher, to me and everyone."

Leon "not to Noah" Leon best friend

Marius "Sweared to everyone, you was just totally out of control, but are you swearing anymore?"

Leon "no"

Marius "are you screaming anymore?"

Leon "no"

Marius "ehh no."

Leon "or maybe sometimes"

Marius "but that is not often, do you behave at school?"

Leon "Yes"

Marius "Can you sit properly in class?"

Leon "Yes"

Marius "have you destroyd every results until January?"

Leon "Yes"

Marius "So we have been impeccable if we think of the situation from home, That is enough prove for me and Leon not at least, that this here is better life for him than being with you."

Mother "you are hearing what your mother is saying, ok?"

Leon "NO"

Mother "now it will enter people based on your behaviour and the behaviour of your dad that is what that have been the main concerns, your behaviour. Ok? And what they are going to investigate is why it is what it is, and if it is correct what you are saying. And when they are finished with the evaluation that situation, will the report say one of two things. That it is not" Leon hang up, since he was fed up by his mum.

Marius "you must say good bye to her."

Leon "Ok then."

Marius "you still have to treat her with respect, but there is no point of keep on with conversation."

Leon "should I say"

Marius "Just say you don't want to talk anymore about that. It just gets to dumb right now."

Leon "I don't want to talk with her with face"

27.35

Marius "no, you are hearing what she is saying, that you are lying, and says it straight in your face."

Leon "I don't want to talk more about this."

Mother "why are you hanging up?"

Leon "I don't know."

Mother "why are you so rude that you hang up when I am trying to tell you how thing is. I am just telling you what people around me is telling me. "

Marius "what you are saying."

Mother "if you don't want to talk anymore about that, then that is fine, they will come anyway, and the tests will be taken. And I am trying to tell you that the behaviour that you are showing and your dad is showing, makes people really concerned"

Leon "I don't want to talk more about it, is that ok?"

Mother "when are we going to talk about it then? Will we talk again after there have been people on visit then?"

Leon "no, never again"

Mother "is this the way you should deal with problems Leon. Don't talk about them?

Leon "I talk, I talk with my father."

Mother "and now I am telling you that this is not, ok."

Leon "I am saying that is ok."

Marius "just hold on a second kay, Just hold on kay"

Mother "don't interfere"

Marius "No, since you are telling him that he cant talk with me, and now you going to get a clear answer of what I have said to the kids. Have I ever told you that you are reacting to things before you have had any reactions?"

Leon "no"

Marius "Have I ever told to you that YOU are allergic to this?"

Leon "no"

Marius "against anything?"

Leon "no"

Marius "Have I ever going around, an example with the paper episode, have I ever said to you in these 8 months before Liam saw you get a reaction with paper, that you did not tolerate paper?"

Leon "no"

Marius "have I ever" Then she breaks up since she knows I could go on forever. I can't or have never said to my kids anything because of the way the mother is acting. I have never taken that risk. I let them get red, I let them almost die of an reaction before I handle the things so that the mum cant accuse me of being crazy with my kids. But the risk that follows is that someday they get an powerful reacting and then the mother killed them or damaged them for life. Like Leon now couldn't breathe for 2 weeks at the time over a 3 months period on Canaria, but can't have allergic medicine because the hospital refused to help us. And they refused.

Marius "I want to tell you have it is, you must allow the kids to express their own thoughts."

Leon "I want to hear on my dad"

Mother "no you cannot listen to your dad anymore"

Marius "put it on mute, you are on mute, no one hears you"

And know we slips over to something else
