

Hello

This is a mail about an episode happened 18.01.2022, there was a fight that happen between Leon and two others, Haakon and Jonathan. The report goes to guardia civil, school, child service and my lawyer.

26.10.2021

We can start off by telling you that I was in contact with Jonathan's mother 26 of October to try to fix some "tension" between the two off them. I didn't know what was happening, so I asked the mother on a text, but she never responded. So, she clearly didn't want to fix this.

29.10.2021

I send a message to Lars and said to him that when Leon told the other kids at school what he wanted to be on Halloween, they started to call the costume paedophile, gay etc, which made him not want to go, so already here it is pretty clear that the boys have started to bully my son. He stayed home.

19.11.2021

Here is a rushed in meeting with Lars about the situation with Leon and the other kids at school. Lars said here that we should have a meeting with the parents and the kids to try and solve the problems together as soon as possible. Up to this date, there has been no meeting, so it was not so important for the school after all. We should also talk about Leon's attributes at school since he has had his challenges, but we only spoke five minutes about them since the meeting was about the problems with Leon against Marius, Ilker, Jonathan and Haakon. They also stated that they should be aware off the situation. And take precautions to everything at school, which have not happened.

10.12.2021

Meeting about Leon wanting back to his mother since I took his computer away. Both principal and the main teacher Lars is stating that Leon is no where near a kid with ADHD or aggressive problems. So, then I ask you, what is the reason for him to explode in school, when there is no sign of aggression issues? He sits still in class and tries to catch up but finds it difficult since he gets bullied every day in school. Up to this date he is still calm and collected in class.

What also happened this day is that Jonathan throwed antibac in Leon's face and hit him in the eye. Leon snapped and kicked Jonathan in the side of his body. They claimed Leon was a danger for the other students. The only one they took was Leon. Now they had bullied Leon for one and a half month.

10.01.2022

First day back at school after new year. Jonathan is getting physical to Leon with an aggressive attitude. He picks Leon up and Leon defends himself when he gets his arm free, then he punch him in the face to make him back off. Something a teacher also stated and seen. And the only one that got spoken to by the teacher was Leon. This happened earlier that day and for the rest off that day Haakon got Jonathan, Marius and Ilker to harass Leon the rest of the day.

11.01.2022

Sigbjorn Leon's teacher called me to tell me about the incident. We talked for over 20 minutes about what we can do with this. I told him that I have told Leon to stay away from Jonathan and will not be near him anymore, even though it is not my kid's fault.

17.01.2022

Leon gets back to school after one week of since I have been ill. Leon comes home after school and are getting bullied the whole day, Jonathan was picking him up and Haakon got again everyone with him and talked ugly to Leon the whole day. Throwing basketball to his head repeatedly, this is usually something Haakon makes Ilker do. He came home and said this was his worst day in school as long as he can remember. And trust me, he has had enough bad days. Now I texted the mother to Haakon and told her all about it. And told her she needs to stop Haakon since now it is him that makes the other once follow him, and before Christmas it was Jonathan. She off course believed her son And said I should talk to the school. I told her I have and it is not helping. I tried to warn her about the situation. And as you can see I had a 20 minutes long conversation with the teacher six days before and Leon have not been in class before now. This was the first school day for him after the conversation with Sigbjorn. She wanted to set up a meeting all the kids and the parents. I said ok. But after the fight it is not ok anymore.

18.01.2022

Leon gets chased by Haakon since a friend of Haakon heard that Leon wanted to punch Haakon in the face yesterday, because he was harassed all day. It started with Leon walking by Haakon and Haakon said something to Leon, Leon said I don't want to talk to you. Then Haakon raised his voice and followed after Leon. So, when Haakon gets to Leon he starts to push him and laugh at him that he don't dare to hit him. telling him that he is a chicken. Leon pushes him back. And then Haakon hits him in his face, Leon reacts with a punch back. After that punch Leon got control over the fight because Leon is good at fighting because of his first school. Haakon tried to kick him, Leon took his foot and throwed Haakon on the ground, and Leon lets Haakon get back up. This is his words of why he lets him get back up, Dad you have told me that I never can punch or kick someone on the ground, because he respects the fight. But I can promise you that this will never happen again if Haakon attacks Leon again. Leon is not going to another doctor appointment because of the schools failure of protecting my kid. So, Haakon underestimated Leon. Haakon then starts yelling to Jonathan to hold Leon. Jonathan comes in and holds Leon's hands behind his back and starts to throw punches at

Leon's face. The first one misses because Leon dodges the punch and hits Jonathan, the two next one hit Leon in his face. Then Jonathan lets Leon go, Haakon then pushes Leon so he almost falls over beside a wall. When Leon tries to get up, he takes Leon's head and smash it so hard into the wall that Leon loses control over his muscles and body. He then does it one more time. Walks away and says start crying. This is unacceptable. And the school have let this happen.

What is interesting after I have been talking much to Leon about to day, is that he says that Marius and Jonathan never said a word to Leon the whole day. And my sons word is that he feels sorry for Jonathan because Haakon makes him do things he don't want to do. He can see in Jonathan's face that he knows he is doing something wrong and don't want to participate. How fucked up isn't that. I have a son that has been hold by Jonathan and feels actually sorry for him. What I know for 100% after this, after today, you can never break Leon. He has become a machine. And somehow, I can thank the fucked up Norwegian school system, Norwegian doctors and the mother for it, and of course my counselling fixing him when you all have fucked him up left and right for six years. Something I can document every bit of. I have a son that is more man than any of the kids at that school. I have a son that is more man and more humble than the teachers at this school. The teacher at this school cant even stick up to bullies that are eleven, and my son does it by himself. For some reason I am happy to see how he has grown as a human being around you people. This makes it easier for him in the future to spot BAD people, really BAD people.

Every time I have tried to tell the school about what is happening, they are then trying to say that the other kids have their stories so it is difficult. Bullshit difficult. It is four against one, there is no such things that difficult. This has been an ongoing battle for months and the school have done nothing about it, today the whole sixth and seven grade saw the fight with the new assistant to Sigbjorn watching and comes when Leon has been smashed to pieces by two cowards. Leon gets really angry at the teacher and are screaming to her that she is fucking up his life since she didn't do anything. She replays with, "what are you saying I have only been her three days" So, he then gets a mental brake down because of that stupid teacher that should be put in jail for accepting gang violence between kids. Actually there is more adults in this school that should go with her. How far is a kid pushed to get a mental break down because the teachers are never there to help him in the breaks? There were over 50 children that watched what happened and not one teacher was there to help? My son said to the teacher that arrived after the fight if this happens again he will punch her.

My son is still behaving good in classes and can still be in this class, but for how long. And then the teacher of Leon Sigbjorn calls me and tells me I need to pick up my kid because he has anger issues and are afraid of the safety of the other kids at school. And then he again tries to tell me that there are different stories to what have happened. Who cares about the different stories? Let us say that Leon is starting, then he is the first kid in the history that takes on four kids every day, just to have an awful day at school. After he had hell for four years in Norway. The stories from the teachers and the four kids is easy to disguise. They are four against one. How stupid are these adults? And this is only a couple of days with violence I have written about, I will not forget every other day that the teachers at this school have just don't cared at

all. And today, after this violence, they are still talking about the other kids stories. Today is the first time I actually have reflected over that this school really don't care if Leon dies in their school yard. When you let someone smash the head of another kid into a brick wall, then the school should be sanctioned highly for their "mistakes". Because it is verry obvious that what is happening is not a mistake. They have let this happened. To say that my kid is a danger to other students in school, is a disgrace against social intelligence after all the warnings I have been given this school off the group of bullies against my son. And the mother the day before the fight. And still, Leon has just protected himself. Jonathan attacks Leon and holds him and Leon is protecting himself. Haakon goes on Leon and starts attacking Leon, and Leon is defending himself. I will make justice for everyone of what has happened at this school one way or another, I can promise everyone that.

I need to bring one more thing up. There is a document sent to school and my lawyer 14.12.2021 where it says clearly at the bottom that the principal will froward my mail because the teachers never gave me the email I asked for. The email I needed was the contact information to child service in Alfas. Today 19.01.2022 I called them since I still had not received any information from the school on who my contact is. The main reason I called him is to let him know that I will not enter the school again, unless it is an emergency, because of what happened yesterday. We are supposed to have a meeting 25.01.2022 with the child service. I told him that he must change the schedule and the place. That was no problem off course. But then I asked him if he had received the mail from me. And the answer from him was off course, no. So why did the school hold back my email? The school made a child service case on me, so why couldn't they forward my mail? I I will now send this mail and off course the first one to the child service now so that they have full insight in your treatment on me with child service, and my son with the bullying the last three, four months. Again, the mistakes the Norwegian system are doing to my family is just out of line. It is just repeatedly evil decisions. It is not bad decisions; this is evil because the school are doing it on purpose. This is not only causing us problems of welfare of us, but this is also a problem with money because of the situation I am in. So, as long as this is going on I am losing money. Who are the one that are giving me money for this? Where is my compensation for the last one-and-a-half-year struggle with the Norwegian system? That we need to find out.

After writing all the information over have I got an email from Leon's teacher that are not giving any consequences for the action of the kids. He doesn't even mention that Haakon smashed Leon's face into the brick wall, two times. He mentioned that Leon started with Haakon, if you see over when Leon attacked Jonathan, who started? SO, Leon starts the fight with the one in the class with most respect and are supposedly the strongest kid? But not with Jonathan? This is again completely out of line. How can a teacher lie like this? Why do he lie like this? What makes this school fuck up my kid? He mention that Leon have done harm to one other kid a couple of times, yes, that is Jonathan as you can see in the description over. He tells that Jonathan hold him but tried to "stop" Leon from fighting. Hahaha. The kid that have been beaten by Leon two times for making Leon angry is trying to "stop" my kid. And this is the teachers statement. He also tells me that more of the kids are ganging up against Leon some times, but not as much that Leon is saying. This is interesting statements. Because he is telling me exactly what the other kids are telling him. And still don't believe anything of what Leon is saying. There is one mention about me giving Leon tricks, Of course I do. I am buying a boxing

bag tomorrow. I am going to teach him everything. Because the school have not protect my son at all. Do you know what I did with Leon before school this day. I told him if for ten minutes that if Jonathan holds you again you are throwing your head backwards the hardest you can until Jonathan stops. How could I know what was going to happen? Leon told me a couple of weeks ago that Jonathan hold a kid named Aron and did the same treatment with him, it was either Ilker or Haakon that punched him in the face, and this was five times not two. Aron told the story and Ilker confirmed it when Aron told Leon. I spent Ten minutes that morning because I knew what was going to happen because they spent the whole day the day before bullying my son really bad. Today Aron have told the teacher that this is a lie. Why did he tell them that this is a lie? Jonathan was listening to our conversation when I picked up Leon, he tried to interrupt when Leon was talking about this situation. He was standing behind a wall and suddenly walked out and tried to speak. I have lived in this sort of environment, I have grown up in the “ghetto” in Norway, I was one of the badest kid in the streets, I know exactly how they think, and exactly how they are protecting themselves. I know coward kids that only have it in their mouth and are using dirty tricks. I know everything of those kids and I have only spoken to one of them twice. This is why I sent a concerned message the day before to the mother. And after the answer from the mother where she defends her son, I know for sure that the son will go after Leon since I had sent a message to his mother. Leon didn't headbutt backwards because as he told me, he got shocked when Jonathan picked him up. He only focused on Haakon. I actually tried before he went to school that day to make him ready for the school day. And this is the statement from the teacher. Playing down the situation. I am glad for this statement, because it shows that they are throwing away their responsibility of what have happened, which makes my case even stronger. And it is my responsibility to make sure that my kids don't get bullied at school, so if I need to show him tricks, then I will show him tricks. If I need to buy a boxing bag to teach him how to punch properly because he gets bullied at school, that is what I am going to do. The school refused to listen to me all this time, then it is time to take this in my own hands.

I can promise everyone this, it is too late for me and my son to come in and sit down to make peace. There is no more chance for peace from my side. He will not do anything to anyone unless he gets attacked. As you can see in every incident happened, my kid do not do harm until he gets pushed to it. The school cant say that Jonathan did not throw antibac in his eyes. The school cant say that Jonathan physical attacked Leon with holding him. but it was more to it than that. Leon said he was hitting him on the sides with both arms and then picked him up. But if they attack him again, he will have free limits. I will not make my son go to the doctor again because he fights with cowards. He will do whatever it takes to protect himself. Leon will sit still in school I will make sure of that. He will not participate in ordinary homework anymore. I will take complete control of what Leon is Learning until the summer. Leon is writing and reading every day. English will go away. We will learn Spanish instead so we can go as far away from the Norwegian system as possible. The school will use a math platform online we used under our last quarantine to make us do math on our own. Every time we have finished the math tasks I expect that the teacher updates with new tasks even if we gets a head of pensum at school. If there is a big project in school with other students, then he will participate so that the class don't know that I have taken the control, so that this is not being used against Leon or the other kids in class. I expect 100% cooperation from the school. Now the school have for the first time a possibility to make my son thrive at this shitty school.

Marius Schmidt
